

I am writing in support of the radio station K-LOVE that is broadcast in my area on FM station 90.1. K-LOVE provides the only Christian programming in my local community. There are no other stations that I want my children to hear on the FM dial. The vulgar song lyrics and comments by DJ's on other stations do not promote the same family values as K-LOVE does. I believe there would be a large hole in our community if K-LOVE were to be removed from the airwaves. By promoting biblical moral attitudes and beliefs, K-LOVE provides a service to our community that would be sorely missed if removed. I financially support K-LOVE each month and do not want to see it's station jeopardized by any FCC ruling. Please consider these comments when planning FCC changes to the FM stations.
